

**TITANIUM DUAL** HEAT EXCHANGER  
CONDENSOR

AVAILABLE SS304 CABINET

- Grey Green color
- Grey brown color

*SPECIFICATION*

|                              |           |                          |
|------------------------------|-----------|--------------------------|
| Power                        | (V/ph/Hz) | 380/3/50                 |
| Input Power Max              | (kW)      | 12.5                     |
| BMS                          |           | Ready mount ° °          |
| Refrigerant                  |           | R417a                    |
| Weight of Refrigerant        | (g)       | 2800*2                   |
| Compresor                    | Type      | Scroll Copeland          |
|                              | Quantity  | 2                        |
| Condensor                    | Type      | Titanium Dual            |
| Heat Exchange                | Type      | Titanium Dual            |
| Throttilng Device            |           | Emerson                  |
| Water flow rate              | (m /h)    | 8.0-9.5                  |
| Air flow rate                | (m /h)    | 8.0-9.5                  |
| Water Connection             |           | G1-1/2" DN40             |
| Noise                        | dB(A)     | ≤58                      |
| Current Max                  | (A)       | 37                       |
| Level again electric shock   |           | I                        |
| Water Proof                  |           | IPX4                     |
| Max Output water Temperature | C         | 60                       |
| Operation Temp.Range         | C         | -5-45                    |
| Controler                    |           | Indoor digital controler |
| Dimention                    | mm        | 1200*970*1425            |
| Weight                       | kg        | 295                      |
